## L&D Talent Pool for further education

DSW deliver 10,000+ days of ad-hoc L&D support every year to help our partners create, deliver, quality assure, and project manage a vast array of learning programmes and training interventions.

Our hand-picked talent pool of c850 quality assured L&D professionals provides you with access to expertise as and when you need it.

Blended Learning Design & Development

Skills Coaches

Programme Management

Trainers

Internal Quality Assurers

Whether you're looking for some short-term help, longer term support or looking to build a curated talent pool, our consultants will get to know your business and work alongside your team.

We will listen carefully to fully understand what skills, experience and expertise you need and match these to the talent at our disposal, all of whom have been subject to our rigorous due diligence and quality assurance on-boarding approach.

Over the last five years we've seen a significant increase in the partnerships we have within the FE sector to support their delivery of funded and commercial training programmes including apprenticeships, employability programmes and professional qualifications.

### Blended Learning Design & Delivery

From concept through to formal evaluation, our instructional designers offer an end-to-end design and delivery service for the production and implementation of engaging learning solutions. Using the latest rapid authoring and digital learning tools, we can create blended programmes that ensure successful on-job application.

### Skills Coaches

We understand the importance and impact that a learner's Skills Coach has on their confidence, development and engagement with their programme of learning. It's the single most important relationship the learner has and that person needs to be focused and dedicated, with a genuine passion for learning.

### Programme Management

Our programme and project management team consists of Prince, Agile and Lean qualified associates with experience working in the training and financial services sectors. Our team have supported a variety of client needs including the development and delivery of blended learning programmes, driving operational excellence and digital transformation programmes in learning organisations. A DSW programme manager will enable you to benefit from the experience gained on a broad range of programmes.

### Trainers

Adept in a range of modalities and technologies, our trainers can provide engaging in-person and remote learning experiences. Whether you require support with a specific aspect or full programme delivery, our trainers are at your disposal. All our trainers have occupational competency combined with experience in the apprenticeship sector. Having completed DSW's rigorous onboarding process, you can be sure of a high-quality, cost-effective solution to help you support your learners.

### Internal Quality Assurers

Our extensive team of experienced and qualified IQAs are available to ensure your apprenticeship delivery is rigorous and robust. Their intimate knowledge of End-Point Assessment means they can support you in streamlining delivery while ensuring your apprentices remain on track to achieve positive outcomes.
